UZIN CLEAN-BOX

EXTENDED APPLICATIONS:

- removing fresh synthetic resin adhesive residues
- removing fresh cementitious residues
- removing contaminations of oil, grease, tar, wax, ink, carbon, grass and other stubborn material

APPLICATION:

1. Open the seal-cap of the UZIN Clean-Box, pull out a cloth until the perforations are visible and then tear off.
2. Dab adhesive residues or dirt on surfaces, hands, tools and machinery with the UZIN cleaning cloths, allow to work according to degree of contamination, then rub until completely removed. Repeat as necessary.
3. Always ensure that the seal-cap is carefully closed.

IMPORTANT NOTES:

- By excessive mechanical stress, e.g. by strong rubbing with the cleaning towels of the UZIN Clean-Box, the surfaces to be cleaned may get damaged.
- Oiled or waxed surfaces might get damaged or removed when using the cleaning towels of the UZIN Clean-Box. Test the surface for compatibility and resistance at an unosbtrusive place.
- Always ensure that the seal-cap is carefully closed.

PROTECTION OF THE WORKPLACE AND THE ENVIRONMENT:

For external use only. Avoid contact with eyes. Protect containers from sources of heat. Keep out of reach of children.

DISPOSAL:

Used cleaning cloths can be disposed as construction or household waste. Empty plastic containers are recyclable.

The above information is based on our experience and careful investigations. The variety of associated materials and different constructions and working conditions cannot be individually checked or influenced by us. The quality of your work depends, therefore, on your own professional judgement and product usage. If in doubt, conduct a small test or obtain technical advice. Observe the installation recommendations of the floor covering manufacturer. The publication of this Product Data Sheet invalidates all previous product information.
